Frequently asked questions (FAQs)

**What is CAQH ProView?**

**CAQH ProView** is an online provider data-collection solution. It streamlines provider data collection by using a standard electronic form that meets the needs of nearly every health plan, hospital, and other health care organization.

**CAQH ProView** enables dentists and other health care professionals in all 50 states and the District of Columbia to enter information free of charge into a secure central database and authorize health care organizations to access that information. **CAQH ProView** eliminates redundant paperwork and reduces administrative burden.

**Do I need to be an ADA member to participate?**

No, any dentist practicing in the United States can participate. If you are a non-member and would like to get started, please visit

[ebusiness.ada.org/FirstTimeLoggingInPo3.aspx?PO3ORGAPICODE=CAQHPRW89798928](http://ebusiness.ada.org/FirstTimeLoggingInPo3.aspx?PO3ORGAPICODE=CAQHPRW89798928) to learn more about how to log in.

**Does it cost anything to use CAQH ProView?**

There is no cost for dentists and other health care providers to use **CAQH ProView**.

**What does it mean to “attest” to my data in CAQH ProView?**

After you enter your professional and practice data within **CAQH ProView**, you must personally confirm its accuracy. This is called “attesting” to your data.

**I recently received an email from CAQH ProView, asking me to re-attest to my profile. What does that mean?**

After you complete your CAQH ProView profile, the system will notify you every 120 days to re-attest that all information is still correct and complete, or to update it if not. This enables a dentist’s contracted dental plans to access CAQH ProView profile information based on their different re-credentialing cycles. Please note that a dental plan or other participating organization will be unable to access your data unless you have completed the re-attestation process.
